mind crash sets out to explore the deepest recesses of the human psyche through the utilization of several quite often brutal language exploration techniques the results a seemingly random collection of metaphysical short stories cut ups koans poems and automatic writing are often as unsettling as they are darkly humorous whilst employing these frequently painful mental gymnastic routines the author unwittingly unleashes and subsequently exorcises a number of allegorical demons do not forget to bolt your windows whilst reading it mind crash originally started life as a series of sporadic newsletters available through subscription only to a selective band of cultural mischief makers dotted around the usa europe and japan these long since out of print works together with previously unpublished pieces have now been composed into a single volume for the very first time

book 1 of 2 the crash of the rising sun is based on actual events that took place in 1989 in japan the crash that resulted from the major economic crisis of that spring is still today attributed to a real estate meltdown but nobody ever dwelt further on the real cause or causes of the crisis while suggested by actual events this story is in its entirety a work of fiction all character names have been invented all characters have been composited or invented and all incidents have been fictionalized the story that follows is loosely based on historical facts but whereas some of the events that take place are real the characters names and causes are purely fictional and as such just a figment of my imagination if any person entity or others feel that what is written resembles them and what happened to them then it is purely coincidental and i for one beg for forgiveness as my intentions were never to harm anybody or disclose any secrets trade secrets or others i hope that the reader will have as much pleasure as me in reading this novel as i had while writing it
