the business of less rewrites the book on business and the environment for the last thirty years corporate sustainability was synonymous with the pursuit of eco efficiency and win win opportunities the notion of eco efficiency gives us the illusion that we can achieve environmental sustainability without having to question the pursuit of never ending economic growth the win win paradigm is meant to assure us that companies can be protectors of the environment whilst also being profit maximizers it is abundantly clear that the state of the natural environment has further degraded instead of improved

this book introduces a new paradigm designed to finally reconcile business and the environment it is called net green which means that in these times of ecological overshoot businesses need to reduce total environmental impact and not just improve the eco efficiency of their products the book also introduces and explains the four pollution prevention principles again different less and labor not materials together net green and the four pollution prevention principles provide a road map for businesses and for every household to a world in which human prosperity and a healthy environment are no longer at odds the business of less is full of anecdotes and examples this brings its material to life and makes the book not only very accessible but also hugely applicable for everyone who is worried about the fate of our planet and is looking for answers

this study describes the obstacles to behaving ethically in organizations

getting what you want even if you are the boss isn't always easy almost every organization big or small works among a network of competing interests whether it's governments pushing through policies companies trying to increase profits or even families deciding where to move house rarely can decisions be made in isolation from competing interests both within the organization and outside it in this accessible and straightforward account hans de bruijn and ernst ten heuvelhof cast light on multi stakeholder decision making shunning simplistic model talk they reveal the nuts and bolts of decision making within the numerous dilemmas and tensions at work using a diverse range of illustrative examples throughout their perceptive analysis examines how different interests can either support or block change and the strategies available in managing a variety of stakeholders this insightful text provides both depth of understanding and a wealth of advice it is invaluable reading to students working in business and management public administration and organizational studies plus practitioners or actors operating in a range of contexts

refugees and migration are not a new story in the history of humankind but in the last few years against a backdrop of huge numbers of migrants especially from war torn countries they have again been a topic of intensive and contentious discussion in politics the media and scientific publications two united nations framework declarations on the sustainable

development goals and on refugees and migrants adopted in 2016 have prompted the editors who have a background in international criminology to invite 60 contributors from different countries to contribute their expertise on civic education aspects of the refugee and migrant crisis in the global north and south comprising 35 articles this book presents an overview of the interdisciplinary issues involved in irregular migration around the world it is intended for educationists educators diplomats those working in mass media decision makers criminologists and other specialists faced with questions involving refugees and migrants as well as those interested in improving the prospects of orderly safe regular and responsible migration in the context of promoting peaceful and inclusive societies for sustainable development rather than a timeline for migration policies based on now with states focusing on stopping migration now sending back migrants now or bringing in technicians or low skilled migrant workers now there should be a long term strategy for multicultural integration and economic assimilation this book prefaced by françois crépeau the united nations special rapporteur on the human rights of migrants and william lacy swing director general of the international organization for migration addresses the question of the rights and responsibilities involved in migration from the academic and practical perspectives of experts in the field of social sciences and welfare and charts the way forward to 2030 and beyond and also beyond the paradigm of political correctness

engineering has always been a part of human life but has only recently become the subject matter of systematic philosophical inquiry the routledge handbook of the philosophy of engineering presents the state of the art of this field and lays a foundation for shaping future conversations within it with a broad scholarly scope and 55 chapters contributed by both established experts and fresh voices in the field the handbook provides valuable insights into this dynamic and fast growing field the volume focuses on central issues and debates established themes and new developments in foundational perspectives engineering reasoning ontology engineering design processes engineering activities and methods values in engineering responsibilities in engineering practice reimagining engineering the routledge handbook of the philosophy of engineering will be of value for both students and active researchers in philosophy of engineering and in cognate fields philosophy of technology philosophy of design it is also intended for engineers working both inside and outside of academia who would like to gain a more fundamental understanding of their particular professional field the increasing development of new technologies such as autonomous vehicles and new interdisciplinary fields such as human computer interaction calls not only for philosophical inquiry but also for engineers and philosophers to work in collaboration with one another at the same time the demands on engineers to respond to the challenges of world health climate change poverty

and other so called wicked problems have also been on the rise these factors together with the fact that a host of questions concerning the processes by which technologies are developed have arisen make the current handbook a timely and valuable publication

essay from the year 2019 in the subject sociology communication grade 18 20 course diplomacy and negotiation language english abstract at what point does imposing one s interests cross the line and become coercion this is the main questions this essay is trying to answer responsible and coercive negotiations are not mutually exclusive just as many things in life are not black and white it is good to be aware of the type of negotiation one is involved in and this is best done through attentive listening one should lean towards responsible negotiations and mastering the art of recognizing when a responsible negotiation is turning coercive is essential in an important step on the way of becoming a good negotiator we spend our entire lives negotiating would it be in a formal business meeting with our boss or at the dinner table with our parents as we grow older we quickly learn that getting what we want is not always as simple as we wish it were learning to be a good negotiator takes time and practice and of course knowledge on tactics and preparation typically the goal of a negotiation is for both parties to be left better off as the negotiation comes to a closure these negotiations are called responsible negotiations here the interests and motivations of both parties are building blocks for a win win outcome responsible business negotiations are usually contractual meaning that through deal making parties seek formal agreement on the other hand in conflict or crisis negotiations parties attempt to negotiate conflict resolutions in particular in the sphere of international relations or in the context of war however not all negotiators have a win win objective in mind often times only forceful persuasion leads to results these negotiations are called coercive negotiations and involve the use of threat and force to provoke behavior changes in comparison to responsible negotiations here the interests of the negotiating parties are used as vulnerabilities
