dhwani shah moves the focus from using psychoanalytic theory and technique to explore the patient's mind from a safe distance instead he concentrates on the analyst's feelings subjective experiences and histories and how these impact on the intersubjective space between analyst and patient his eight chapters each highlight a particular emotional state or problematic feeling and explore their impact on the analytic work which requires emotional honesty and open reflection this authenticity is vital for every unique encounter within the shared space of both the analyst and patient the analyst must strive to be responsive yet disciplined and this requires the work of mentalization an ability to go there with patients offers the best chance at helping them the analyst's uncomfortable and disowned emotional states of mind are inevitably entangled with the therapeutic process and this has the potential to derail or facilitate progress the chapters deal with uncomfortable themes for the analyst to face arrogance racism dread and its close relation erotic dread dissociation shame hopelessness and jealousy these bring up common ways in which analysts stop listening and struggle in the face of uncertainty and intensity the difficulties in facing unbearable

experiences with patients such as suicidality disruptions to being with patients in an affective and embodied way and thwarted fantasies of being the hero with all of these difficult topics shah describes painful and tormenting experiences in a clinically meaningful way that allow growth in this exceptional debut work shah demonstrates that what analysts feel in their affects bodies and reveries with patients is vital in helping them to understand and metabolise the patients emotional experiences this is a must read for all practising clinicians

this book explores developments in psychoanalytic field theory internationally and their relevance for therapeutic theory and practice the roots of psychoanalytic field theory can be traced back to the work of kurt lewin and it has taken particular shape in the hands of the barangers bion and ferro the book s focus is on developments in field theory post bion post bionian field theory in italy with contributions from brazil serbia and the usa in the form of chapters by boffito civitarese fagundes levine mazzacane mojović morgan jones and snell and penna and hopper among the themes the book explores are the transformative potentials of play and the centrality of dreaming the book is informed by a psychoanalysis not so much of decoding and archeological uncovering as one of being and becoming within a shared field in which therapist and patient are partners in creating exploring and developing the chapter by mojović and the commentary by penna and hopper extend the use of field theory in other historical and geographical developments field theory and group analysis have productively been brought together notably in argentina where the two are most closely linked this book will be essential reading for students and scholars of psychology and psychotherapy interested in field theory and contemporary psychoanalysis the chapters in this book were originally published as a special issue of european journal of psychotherapy and counselling

this book maps out how political networks and centres of power engaged in patronage corruption and illegality effectively constituted the afghan state often with the complicity of the u s led military intervention and the internationally directed statebuilding project it argues that politics and statehood in afghanistan in particular in the last two decades including the ultimate collapse of the government in august 2021 are best understood in terms of the dynamics of internal political networks through which warlords and patronage networks came to capture and control key sectors within the state and economy including mining banking and illicit drugs as well as elections and political processes networked politics emerged as the dominant mode of governance that further transformed and consolidated afghanistan into a networked state with the state institutions and structures functioning as the principal marketplace for political networks bargains and rent seeking the façade of state survival and fragmented political order was a performative act and the book contends sustained through massive international military spending and development aid obscuring the reality of resource redistribution among key networked elites and their supporters overall the book offers a way to explain what it was that the international community and the afghan elites in power got so wrong that brought afghanistan full circle and the taliban back to power

this book offers a comparative study of the major schools of psychoanalysis by exploring their historical development their differences and similarities and the underlying assumptions made by each encompassing the expertise of colleagues from different schools of psychoanalytic thought each chapter explores a particular perspective defining specific theoretical assumptions theories of etiology and implications for technique as well as providing each author's view on the historical development of key psychoanalytic concepts with contributions from leading authors in the field and covering both historical and international schools the book provides an enlightening account that will prove essential to psychoanalytic practitioners and students of psychoanalysis and the history of medicine

textbooks are indispensable components and in some case the cornerstones of the mission of english language teaching elt however they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers teachers and students this book offers a useful framework for evaluating elt textbooks from a critical discourse perspective one that is based on sound current research but also offers practical guidance to teachers building from a foundational understanding of elt textbooks the author presents a systematic procedure to critically analyze their multimodal discourse examine how those discourses are negotiated between teachers and students in class and measure how those consumers privately value the lessons the book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis where not only the text but the pictures websites audio visual elements too are subjected to a process which can reveal underlying ideologies assumptions omissions and reifications the triangulated approach demonstrated in a series of vignettes featuring korean university students and native english speaking instructors can inform textbook choice instigate change and inspire lesson re contextualization to best suit the needs of its primary consumers
