the messianic secret which one century on is still the point of departure for all studies of the gospel of mark and of an understanding of the literary methods of the gospel writers is now available in english in this translation by j c g greig wrede s primary concern in his discussion of mark is the doctrine of the messianic secret the notion of a jesus who assuming messiahship at baptism keeps it secret for much of his ministry until after the confessions of peter he introduces the disciples to the idea of a suffering and dying messiah the idea of such a secret can be shown from a study of the other gospels to have developed variously and above all to go back to a period prior to mark s work as the earliest evangelist wrede finds the theological source of the idea of a secret about the messiahship in a contrast between what the church came to think of jesus and how his life had been understood during his ministry he suggests that because the church came to think of jesus as messiah after the resurrection they came to explain the lack of explicit declaration of his messiahship by jesus during his ministry by suggesting that nevertheless jesus had after all secretly revealed himself as the messiah the doctrine of the messianic secret is says wrede the after effect of the idea of the resurrection as the beginning of jesus messianic office furthermore if this doctrine could have arisen only at a time when nothing was known of any open claim on jesus part to be messiah this seems to be positive evidence that jesus actually did not represent himself as messiah wrede was among the first to recognise the creative contribution of the writers of the gospels and to emphasise the necessity of a historical approach to the church s traditions if we are to avoid a naive misunderstanding of the perspective from which the gospels are written his work is thus the foundation stone not only in the study of mark about whom he still has much to teach us but also in the vexed area of the contribution of the evangelists to the gospel in this field wrede s work is still essential reading unsurpassed by the advances of the form critics the redaction critics whose work draws directly on his and even of the more advanced literary critics of the present day

nothing in this world works the way you think it does there is always more to the story be aware that there is a war for your mind and your soul corporations have taken over governments in a new form of fascism that now incorporates high technology and artificial intelligence the survival of the human race may depend on breaking the

embargo of truth and collectively developing an Ü bermind but truth always resonates beyond esoteric takes off the kids gloves and exposes the control grid extending its tentacles across the planet the word occult means nothing more than to study the realm of the hidden so much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know everything we think we know about the world and the universe in which we live whatever we have been led to believe concerning the course of human history could very well be completely wrong distorted and misinformed the 19th century teachers of the occult could never have imagined escaping prison planet of the 21st century we now face one that extends far beyond esoteric
