what are the decade volcanoes and are they going to kill us there s no quick and easy answer
to that question other than dangerous and maybe this book helps you get started on your own
investigations into these beautiful but hazardous fire mountains it explains what the 1990s
decade volcano program was and why it got started then you ll meet the sixteen volcanoes
seventeen actually but they made the two russian volcanoes a single entry besides basic
facts written in plain english by an informed layperson there are also links to videos and to
much authoritative online background material and monitoring websites if technical details
are your thing you ll find an extensive reference section at the end of the book
